RAILROAD WRECKS.

Disasters on Several Different Roads.

A NUMBER OF PEOPLE INJURED.

An Accommodation Train Telescoped by a Through Express on the Chicago and Eastern Illinois—A Snow Plow Goes Crashing Into a Blocked Passenger Train on the Chicago and Northwestern. Wreck on the Iowa Central—Other Disasters on the Rail.

CHICAGO, Jan. 14.—The Crete accommodation on the Chicago and Eastern Illinois road, leaving Dearborn station at 7:20 o'clock yesterday evening, was telescoped at Fifty-fifth street by a Chicago and Erie through train to New York. The accommodation train consisted of three coaches filled with suburban residents on their way to their homes. Fifteen people were severely injured in the wreck, and scarcely any, one of the 150 or more passengers escaped some bruises of minor injury.

To add to the horror of the scene, the center coach of the accommodation train caught fire from the overturned stove, while three passengers, two women and one man were caught in the wreckage close to the flames, and were cut away from their perilous position by the heroic efforts of their fellow passengers.

The list of injured is as follows:

D. B. Caldwell, both legs broken.

Mrs. E. C. Mayhew, internally injured.

William B. Smith, cut over eyes and back injured.

Lottie Boyd, badly bruised and internally injured.

F. B. Marshall, both legs crushed below the knees.

Mrs. F. Moore, left leg and side bruised.

Mrs. R. B. Watkins, head and neck bruised and legs crushed.

Mrs. E. A. Mithoff, back injured.

Freida Kitchik, head bruised.

Mrs. S. S. Nau, left foot and back bruised.

J. R. Coffman, cut on head.

John Raymond, private Company D, Seventeenth infantry, of Brooklyn, back and legs bruised and internally injured; may die.

L. F. Truinan, left leg broken and back and side bruised.

CAUSED BY A SNOW PLOW.

A Blocked Passenger Train Ran Into and Several People Injured.

DES MOINES, Jan. 14.—About 5 o'clock yesterday morning, a snow plow on the Chicago and Northwestern railroad ran into the rear of a passenger train that was stuck in the snow near Storey City, on the Des Moines and Webster City branch. The rear coach, which was nearly filled with passengers, was reduced to kindling wood. Several passengers were injured, but no one was killed.

The male passengers, after smashing their way out of the wrecked coach with broken seats, burst in the windows and rescued the ladies; many of whom had fainted. When all were rescued the passengers walked back to Storey City and remained until a train was made up to bring them to Des Moines. Among the passengers was a traveling man named Zeeko, representing Prouty & Pratt, of this city, who was badly hurt.

John Morris, also of Des Moines, had his hip and his head badly injured. Ovide Musin, the violinist, was severely injured as to compel him to cancel all dates for his troupe. There were about twenty traveling men on the train, three of whom were badly injured and were left at Storey City.

Passenger Train Derailed.

BURLINGTON, Ia., Jan. 14.—It is reported from Morning Sun, Ia., that a bad wreck occurred yesterday evening on the Iowa Central railroad. An eastbound passenger train was derailed while on a crossing, sixty feet above ground. Two were killed, and two others sustained injuries that will probably prove fatal. Among the injured are: Rev. Miller, Wayland, Ia., seriously; Elmer Reece, Morning Sun, slightly; E. S. Drummer, Wyoming, Ia., back hurt.

Cable and Horse Car Collide.

KANSAS CITY, Jan. 14.—A westbound Eighteenth street cable car yesterday collided with a crowded Prospect avenue horse car at the corner of Eighteenth street and Prospect, injuring three people. The most seriously injured is Miss Kirtlet, a school teacher.

FLUES BLEW OUT.

Serious Accident Occurs on a River & Towboat.

CHATTANOOGA, Jan. 14.—At 5 o'clock yesterday evening as the steamer J. C. Warner was towing the steamer R. T. Coles through the Skeleton, a troublous passage in the Tennessee river, eighteen miles below Chattanooga, two flues in the boiler of the Warner collapsed.

Two of the colored deck-hands were blown from the boat into the river and drowned, twelve other deck-hands were scalded more or less seriously, and the second engineer, of the Warner, the mate of the Coles and the night watchmen were also seriously scalded. Neither of the steamers was injured to any great extent.

COLUMBUS, O., Jan. 14.—John W. Lewis, the ex-marshal of Hillsboro, convicted of manslaughter for killing Ed Elliott, and sent up for seven years in 1891, has been pardoned by the governor.

RESCUED IN TIME.

A New York Man Attempts to Burn His Wife to Death.

NEW YORK, Jan. 14.—"The woman who can't be trusted while her husband is away from home, deserves to be burned to death," said Robert Ross, a stevedore, living at 91 Bedford street, in the Jefferson Market Police court yesterday.

In returning from work Thursday night Ross was astounded to find that his wife was absent, and that she had neglected to prepare any supper for him. Cold, hungry and angry, he set out to look for her. Ross entered a saloon at Grove and Bleeker streets to blunt his feelings. While he was drinking the sound of muffled laughter from an adjoining room reached his ears. One of the voices seemed strangely familiar, and an investigation proved its owner to be the object of his search.

The scene that followed was lively. Two men dodged through the family entrance as though fired from a gun, and the woman began sobbing hysterically. The combined efforts of the proprietor and bartender of the saloon were required to protect Mrs. Ross from bodily harm. After a simulation of peace had been restored, Ross and his wife started for home.

Upon arriving at his own rooms his anger again broke out and he made his wife disrobe. In spite of her tearful protests he took her new gown and pretty skirts and deliberately stuffed them into the stove. While they were burning he began unpacking her trunk for more fuel.

The noise made by Ross in his work attracted the attention of a neighbor, who summoned a policeman. The officer found Mrs. Ross' garments heaped upon the floor and Ross pouring kerosene over them. Ross said he intended to ignite the clothing, lock his wife in and leave her to her fate. The officer placed Ross under arrest. The prisoner was held.

SENATOR KENNA'S FUNERAL.

The Remains of the Dead Statesman Peacefully Laid to Rest.

CHARLESTON, W. Va., Jan. 14.—The remains of the late Senator Kenna were removed from his residence yesterday afternoon by the legislative committee which escorted them from Washington and conveyed to the senate chamber of the state capitol, where they lay in state until 9:30 this morning. During the remainder of the day and evening and all morning large crowds of citizens took a farewell look at the deceased statesman.

The capitol building was draped throughout in deep mourning, and the flags in the city and on steamboats in the river were displayed at half mast. The floral tributes placed upon the catafalque were profuse and appropriate.

The senate chamber was guarded all night by sergeants-at-arms of both houses with a suitable corps of assistants.

At 9:30 this morning the remains were escorted by the congressional, legislative, and bar association committees and citizens to St. Joseph's chapel, where the funeral services were conducted at 10 o'clock by Rev. Father Stenger and his assistants.

At the conclusion of these exercises the remains were taken to the Catholic cemetery for interment.

The congressional committee will leave for Washington at 3 o'clock this afternoon, with the exception of Senator Faulkner, who will remain here to personally conduct his canvass for re-election.

MR. BLAINE'S CONDITION CRITICAL.

One of His Physicians Constantly at His Bedside.

WASHINGTON, Jan. 14.—The callers at the Blaine residence yesterday were few, and those who were seen after their visits informed representatives of the press that they were told that Mr. Blaine was "about the same."

Doctors Johnston and Hyatt called about 9 o'clock last night, and after remaining with their patient about a quarter of an hour, left. When he left the house, Dr. Johnston said that Mr. Blaine had been languid and weak during the day, but otherwise there was no change in his condition.

Dr. Johnston returned at midnight. He said to a press representative that he expected to remain with the patient for some hours and probably until morning.

This indicates that Mr. Blaine's condition is again critical in the extreme, as his physicians invariably avoid staying with him whenever they consider it safe to do so.

At 2 o'clock this morning there was not the slightest indication of any change in Mr. Blaine's condition. Everything was quiet within and without the house.

IMPERILED EUROPEANS.

Hardships Endured in Fighting the Slave Traders.

BRUSSELS, Jan. 14.—Commander Long, in charge of the first Belgian expedition sent out in the relief of Captain Jacques and Captain Joubert, has been heard from. The dispatch states that Captain Jacques and Joubert were still engaged in fighting the slave traders on the border of Tanganyika.

Jacques had again been repulsed in his efforts to break through the enemy, and the spread of the cattle disease had caused a famine in his camp. Commander Long was hurrying to the relief of Jacques and Joubert. A fresh expedition is being organized in Belgium to rescue the imperiled Europeans and assist in the suppression of the slave-traders.

BURIED UNDER A FALLING WALL.

KANSAS CITY, Jan. 14.—While working in the debris of the Jactard fire yesterday one of the walls fell, burying seven men. Charles Ferris received internal injuries that may prove fatal. John Crane had his left arm broken and was badly bruised. Wm. O'Brien, Joe McCarlin and Matt Bingham were also hurt, but not seriously.

NEW YORK, Jan. 14.—The will of Jay Gould was admitted to probate yesterday. Special Guardian Rollin M. Morgan is given \$800, and Special Guardian Mapes \$1,000 for services in the probate proceedings by Surrogate Ransom.

HOTEL BURNED.

Serious and Probably Fatal Fire at Duluth, Minn.

SOME OF THE INMATES MISSING.

Five Girls Believed to Have Perished in the Burning Building—Many of the Occupants Were Compelled to Use Fire Escapes and Ladders of the Firemen. Other Fire Losses.

DULUTH, Jan. 14.—Fire broke out in the basement of the St. Louis hotel yesterday morning, and destroyed the house in an hour. Many of the occupants were compelled to use the fire escapes and ladders of the firemen. Men and women, half-dressed, climbed down the ladders while the mercury hovered several degrees below zero. There were many narrow escapes, and the firemen fear that several lives were lost.

There was very little time to save the books of the hotel. Nearly all the guests lost their entire effects. The building was an old brick veneered structure, five stories high, or Michigan street. It was built in 1883, and was for a long time the only decent hotel in the city.

It was the property of the Boston Realty company, of Massachusetts, and was insured for \$35,000, with rent insurance of \$10,000. The loss will reach \$100,000.

Adjoining the hotel is the Brighton hotel, belonging to the same persons, but separated from it by a solid wall. The light court in this building caught fire but was saved. The damage by water, however, will be great. An insurance of \$85,000 and 15,000 on rents is carried by the Brighton. The insurance on stock is about \$30,000, and half of this is a total loss.

The fire was caused by the explosion of a gas meter in the basement, where the laundry is located. It is thought some of the night help, who were in bed at the time, were burned to death. Five of the laundry girls are missing and it is feared are dead. All the guests are accounted for, except one.

THREE PEOPLE BADLY BURNED.

Terrible Results Follow the Explosion of an Oil Stove.

DETROIT, Jan. 14.—Three persons were terribly burned in a small fire at 36 Market Place yesterday. The place was occupied by Rudolph Hirt, the lower floor of the two-story frame building being used as a produce store, and the upper floor as the residence of Mr. Hirt.

The family consisted of Mr. Hirt, his wife, three children, his wife's mother and wife's sister. The fire started from the explosion of an oil stove. All the inmates escaped with the exception of the youngest child. The father, wild with fear, plunged back up the stairway, closely followed by his wife. Mr. Hirt secured the child, but when he reached the head of the stairway again, it was a mass of flames.

Tearing the glass from a window he jumped to a shed below. The mother's face, neck and head were badly burned, and the baby's head, neck and hands were burned. Mr. Hirt was burned about the face, neck and left hand, and will probably die. The other two will probably recover. The financial loss is small.

STOREHOUSE BURNED.

FOSTORIA, O., Jan. 14.—Over \$40,000 worth of property was destroyed by fire at an early hour yesterday morning. The fire was in a large two-story storage warehouse owned by Secretary Charles Foster, and occupied by business men for the storage of merchandise. The origin of the fire is not known.

TWO SAILORS BURNED TO DEATH.

BOSTON, Jan. 14.—The sloop Shawmut, which arrived Wednesday afternoon from Sandy Hook, was burned yesterday while lying at Commercial wharf. Two of her crew, Frederick Allchrist and Charles Beneson, who were sleeping in the cabin, perished in the flames.

BOY BURNED TO DEATH.

HAMILTON, O., Jan. 14.—At noon yesterday the residence of Alexander Miller, on South Water street, caught fire, and is almost a total loss. Willie Miller, a small son, was burned to death.

FUEL FAMINE.

COAL AND WOOD SCARCE AND NATURAL GAS GIVING OUT.

GREENSBURG, Ind., Jan. 14.—The conditions growing out of the present intensely cold weather are, assuming an alarming aspect. The supply of coal in the hands of dealers is very low, and a famine is near at hand. The natural gas wells all show a disposition to flicker out, and many families who erstwhile toasted themselves before cheerful gas fires have been compelled to return to the plebian wood and coal.

Wood haulers have grown independent and difficult to approach, as they feel that they now have the whip hand, and are "out for the stuff," as the boys say. There is great suffering among the poor, and the situation grows graver from day to day. The fact that this city has largely depended upon natural gas for fuel during the past few years has had a depressing effect upon the wood market, and very little timber has been cut, so the supply is as short as that of

the coal.

BURIED UNDER A FALLING WALL.

KANSAS CITY, Jan. 14.—While working in the debris of the Jactard fire yesterday one of the walls fell, burying seven men. Charles Ferris received internal injuries that may prove fatal.

John Crane had his left arm broken and was badly bruised. Wm. O'Brien, Joe McCarlin and Matt Bingham were also hurt, but not seriously.

STRANGE BODIES OF WATER.

One Poisons All Kinds of Animal Life and the Other Petrifies.

CLARKSVILLE, Tenn., Jan. 14.—Two very strange bodies of water lie in Lauderdale county—Dead lake and Stone lake. Almost miraculous stories are told about them. The truth of the following is vouched for by County Court Clerk Joe H. Wardlaw, of Ripley, and Captain Jack Haynes, of Lauderdale:

Dead lake is one mile in length and an average of one-half mile in width. No fish or any kind of water animal can live in it, and any creature drinking out of it is poisoned. The waters are transparent as glass, and the lake is indeed a thing of beauty, but the people living in the neighborhood will not visit it.

Not a great distance away is what is called Stone lake, also a lovely sheet of water deriving its name from the fact that everything that falls or is thrown in it petrifies. It is one of the traditions of the county that years ago an old slave fishing on a log over its waters became stone, and the stone log he sat on was a fallen Hickory tree.

It is stated that numerous offers have been made to the parties owning the lands on which these lakes are situated to buy them, but they will not sell. A strong effort will be made to secure some relics from them to be placed on exhibition at the Chicago fair.

THE GERMAN WORKING CLASSES.

Herr Liebknecht, in the Reichstag, Asks as to Their Condition.

BERLIN, Jan. 14.—In the Reichstag Herr Liebknecht, one of the leaders of the Social-Democrats, questioned the government regarding the condition of the working classes in Germany.

Dr. Von Betticher, secretary of the imperial home office and representative of the chancellor, in reply declared that nothing contained in the communications received by the home office from the various states of the empire showed that unusual distress was prevalent among the German working people.

The meeting of unemployed workingmen that had been held and are still being held at the principal centers were for the most part partial in their character, and had no connection with the labor question. Referring to the unsuccessful strike of the miners in the Saar district, Dr. Von Betticher charged the movement as a purely frivolous one. He concluded his remarks by declaring that under no circumstance would the governmentbrook violation of the law or resistance to its authority.

LAKE DRAINED INSTANTLY.

Strange Natural Phenomenon, the Result of an Earthquake.

DURANGO, Mo., Jan. 14.—The overland mail courier, who has just arrived here from Mazatlan, brings news of the disappearance of Laguna Madre or Mother lake, one of the most beautiful sheets of water in the state of Sinaloa.

The lake was about thirty miles long and twelve wide. It was situated at the foot of the Sierra Madre mountains. A few days ago there was a series of slight earthquake shocks felt in that section. It was during one of the disturbances that the natives were suddenly startled to see the water in the lake disappear as though the bottom had fallen out. Thousands of pounds of fish were left stranded on the bed of the lake.

The sudden disappearance of the water was caused by a large crevice which is supposed to have been caused by the earthquake. The water evidently found an outlet into the ocean through an underground passage. The flow from the springs which fed the lake now passes into this new outlet.

WEATHER INDICATIONS.

For Tennessee and Kentucky, increasing cloudiness and snow in western portions; warmer; southeasterly winds.

GO AWAY from from home to learn the news. The Covington Commonwealth says: "Maysville has two sets of Councilmen." Where did you get your information, Mr. Commonwealth?

It looks like it will be the field against Governor Brown in the Senatorial free-for-all soon to commence at Frankfort. In the finish it will probably narrow down to Judge Lindsay and the Governor.

SPEAKING of the prospective Senatorial contest, at Frankfort, the Louisville Post says: "In the case of Judge Lindsay there is a widespread belief that he deserves the office. There is a sentiment that his tremendous ability has never been fully recognized by the State of Kentucky, and that in sending him to the Senate the old Commonwealth would provide herself with a Senator large enough to fill to the toes the shoes of Beck and Carlisle."

The Ladies.

The pleasant effect and perfect safety with which ladies use themay California liquid laxative Syrup of Figs, under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of package.

Twins and Twins.

Strauder Mullikin, son of Moses Mullikin, of Robertson County, was a twin; his oldest daughter was a twin and she married a Craycraft who was a twin. Mr. Craycraft was a widower when he married Miss Mullikin, who was a twin, and his first wife had also been a twin. This family would be an acquisition to a thinly populated country.—Mt. Olivet Advance.

Ex-Sheriffs.

A bill is pending in the Legislature to grant ex-Sheriffs the further time of two years to collect their outstanding and uncollected taxes, and they are allowed the same remedies and powers of restraint, and shall be liable in like manner as is now provided by law in the collection of such taxes. This act shall not apply to taxes due more than ten years.

A Gar in the Water Pipe.

Mr. C. D. Russell went fishing yesterday in the supply pipe of the hydraulic elevator at the new Russell Building, and finally pulled out a gar that was at least thirty inches in length. The fish was found in the elbow of the pipe where it had lodged tail first, and had stopped the elevator. How a fish of that size got in the water mains is somewhat of a mystery.

Circuit Clerk Fees in Criminal Cases.
A bill is pending in the Legislature providing that "the Circuit Clerks of this Commonwealth shall be allowed and paid out of the Treasury of the State of Kentucky the same fees for their services in criminal cases as they are now allowed by law for their services in penal cases; such fees shall be allowed by the Circuit Courts and paid as other claims against the Commonwealth."

Canning Pineapples

Pineapple packing is an industry monopolized by Baltimore houses. From a small beginning ten years ago it has grown steady until 250,000 cases won't be too large a figure to put on the output for 1892. A number of schooners of 144,000 capacity each run during the season to the West Indies, and in the height of the ripening period the weekly receipts will average over 50,000 dozen. "Pine" packing lasts from May 10 to about July 31, and during the past season 574,000 dozen of the fruit were imported and packed in Baltimore.

"Widow Murphy's Goat."

Colonel Theodore Hoppenheimer has been appointed sole representative in the United States of America and Canada, of thirty-one (31) leading places of amusement in Great Britain, including the "Princess Theatre," London, "The Gaiety," Glasgow, and the "St. George," Liverpool. The managers of these popular houses also control the best traveling theatrical performances of Great Britain and Ireland, and intend sending the choicest of these to the United States during the seasons of '93 and '94. Colonel Hoppenheimer brings the first attraction over, known as "Widow Murphy's Goat." It will be the attraction at the opera house Friday night, January 20th. Seats on sale at Nelson's. Prices, 25, 35, 50 and 75 cents.

HOW HAPPY WE SHOULD BE!

If girls required no diamond ring,
How happy we should be!
If sisters did not try to sing,
If servant girls would only cling,
How happy we should be!

If all the sermons preached were short,
How happy we should be!
If baseball were a winter sport,
If coalmen were a different sort,
How happy we should be!

If Christmas trees in back yards grew,
How happy we should be!
If all the jokes we read were new

And did not make us feel so blue;
If grocers' bills were never due,
How happy we should be!

If plumbers never had to plumb,
How happy we should be!
If Vassar girls would give up gum,
If Johnny had no Christmas drum,
How happy we should be!

If sleigh rides never cost a cent,
How happy we should be!
If fathers always gave consent

And were not quite so trueulent;
If there were no such thing as rent,
How happy we should be!

If cooks would give up kerosene,
How happy we should be!
And when the other players keen
Keep raising us with smile serene,
If we could only draw that queen,
How happy we should be!

If heiresses were not so coy,
How happy we should be!
And if, amid the season's joy,
You think of those that you employ
And don't forget the Carrier Boy,
How happy we shall be!

Troops Drive Strikers Back.

BERLIN, Jan. 14.—Driven to desperation by the futility of their strike, several hundred of the miners at Dortmund Friday made an attack upon the overseers of the pits. Trouble had been anticipated until a strong force of troops was dispatched to the pits to assist those already there guarding the new men. The strikers were in sufficient force to carry out their intentions and their dispositions were very ugly.

Senator Culion Ill.

WASHINGTON, Jan. 14.—Senator Culion, of Illinois, is lying ill at his residence in this city from the effects of a heavy cold.

The Legislature.

The House did very little of a business nature Friday. The Committee on Revenue and Taxation reported favorably Mr. Quigley's bill to create the office of County Treasurer, and the bill was advanced.

Mr. Ball, of Henderson, introduced a bill to protect the owners of over-flowed lands.

In the Senate the most important thing done was the withdrawal of Senator Hutchinson's bill to appropriate fifty thousand dollars for an exhibit at the World's Fair.

This is in the interest of the House bill which appropriated \$100,000, and practically assures its passage in the Senate.

A Correspondent Says the Colonel Wants to Succeed Jerry Rusk.

The Maysville correspondent of the Cincinnati Commercial Gazette says: "Among the applicants for positions under the Democratic administration is Colonel W. W. Baldwin, a farmer of this county, known as the Turnpike King of Kentucky, he owning more turnpikes than any other man in Kentucky, or, perhaps, in the United States.

Colonel Baldwin wants to succeed Jeremiah Rusk as Secretary of Agriculture, and was in New York and broke bread with Cleveland a few days ago, and it is said here by the knowing ones that the Colonel has a cinch on the plum. There is no man in the State more deserving of recognition than Colonel Baldwin."

The correspondent of the Commercial Gazette is an imaginative sort of fellow, and that no doubt explains how such a report as the above got started. Colonel Baldwin went East on business, and took advantage of the opportunity while in New York, with Congressman Breckinridge, to call and pay his respects to the next President.

The BULLETIN is authorized to say that the Colonel does not want to succeed "Uncle" Jerry Rusk.

You will be pleased W. O. N. S.

Mr. GEORGE KATTENHORN, of Cincinnati, a young lawyer visiting Mr. Robert Hoeflich, will conduct the singing to-morrow afternoon at the Young Men's Christian Association. Mr. Kattenhorn is a fine vocalist and will give one or two solos. All men welcomed heartily. Services begin at 3:30 sharp.

The News is authority for the statement that the C. and O.'s No. 1, west-bound express, ran from South Ripley to Dover the other morning in two minutes. The distance is a little over two miles; therefore the speed was over 60 miles an hour. The same train the same morning ran from Dover to Augusta—seven miles—in seven minutes.

CHARLES STEPHENS, a compositor in the Gazette office in Mt. Sterling, has had an experience with electricity which he will not soon forget. In attempting to adjust an electric light over his case he grasped an iron pipe near by, and, in some unaccountable manner, a circuit was formed and Stephens received the full force of the current, knocking him down and terribly burning his hands.

SOME of the colored people of Kentucky asked the advice of Frederick Douglass as to the best way of nullifying the Separate Coach law. His reply was as follows: "By the practice of self-denial on our part and by doing as little traveling as possible and keeping our money in our pockets, staying at home and practicing industry, personal neatness and the acquirement of property and education and the building up of a manly character."

BEN BUTLER'S REMAINS.

They Are Taken from Washington to His Massachusetts Home.

LOWELL, Mass., Jan. 14.—The remains of General Butler arrived at 2:30 p.m. yesterday. A great crowd of people filled the station from 7:30 o'clock in the morning. When the train arrived the crowd surged about the cars and impatiently awaited the removal of the body.

As the hearse passed through the throng of people all the men uncovered their heads. On the casket lay a wreath placed upon it by President Harrison in Washington. Mr. Paul Butler with his sister, Mrs. Blanch Butler Ames, followed the body from the train and as the casket was being placed in the hearse, entered their carriage. The hearse and carriages, escorted by the Grand Army guard were then driven slowly down Main street to the general's late home, a mile from the station, the procession being viewed by thousands of persons who lined the sidewalks.

The preparations for the military funeral are nearly completed. Huntington hall, where the body is to lie in state, is being appropriately draped in purple and black. The mills will close Monday, the day of the funeral, and business will be generally suspended.

SENATE AND HOUSE.

Proceedings of Both Branches of the National Legislature.

WASHINGTON, Jan. 14.—The senate yesterday, after an explanation by Mr. Sherman, passed a bill to extend to the north Pacific ocean the provisions of the statutes for the protection of fur seals and other fur-bearing animals.

The McGarahan bill was under consideration for half an hour and after a speech against it by Mr. Mills it went over till next Monday.

The anti-option bill was then taken up and Mr. White's pending amendment to the second section was defeated. An amendment offered by Mr. Vilas which would have the effect of restricting the operation of the bill to "gambling transactions," was doctored for the rest of the day and went over without action.

The Republicans in the house filibustered all day against the consideration of private war claims bill with the result that nothing was accomplished.

At the evening session of the house pension matters were discussed, but no action was taken on any bill, and at 8:45 o'clock the house adjourned.

CARRIED OUT HIS THREAT.

A Prisoner Declares That He Would Never Go to the Work House Alive.

PINE BLUFF, Ark., Jan. 14.—While Sheriff Lee was conveying four hand-cuffed prisoners across the river at Cummings, yesterday, Ed Taylor, one of the prisoners, caused the boat to capsize while in the middle of the stream. Taylor and his partner, Walker Woodmen, were drowned.

The sheriff and the remaining prisoners had a narrow escape from a watery grave. Taylor had sworn that he would never be taken to the work house alive, and in carrying out his threat caused the death of himself and Woodmen.

Dead at Last.

TOLEDO, Jan. 14.—Clay Hopper, the young man who has been lying in a so-called trance for the past two weeks after having his funeral sermon preached, is finally dead. Decomposition set in yesterday in places where electricity had been applied in the hope of reviving him, and now the process is so marked that the physicians and family have given up all hope, and concede that the boy is dead. The case has been a very remarkable one, and has created a great deal of interest among all classes here.

Fatally Injured by Falling Stone.

BRAZIL, Ind., Jan. 14.—Isaac Mitchell, a prominent miner of Center Point, was fatally injured by falling slate in Weaver, Getz & Company's mine, near that place, Thursday evening. The injured man has a family and is prominent in mining circles. No less than twenty miners have been killed by falling slate in this county this winter.

Young Lady Drowned.

PITTSBURG, Jan. 14.—Irene Fawcett, aged eighteen, was drowned in the Monongahela river near this point, yesterday, while trying to save her seven-year-old sister Bella, who had fallen in a hole in the ice. Thomas Fawcett, a brother, succeeded in rescuing Bella, but Irene was drowned before help could reach her.

Consting Accident.

ENGLISH, Ind., Jan. 14.—While young people were coasting here yesterday, a sled bearing James and William Carberry collided with another on which Hugh Costello and a half dozen associates were riding. William Carberry received a broken leg and his spine was injured, and Costello suffered a broken arm.

The Naval Review in Doubt.

WASHINGTON, Jan. 14.—The proposed naval review at New York next spring, following the rendezvous at Hampton Roads, Va., will probably be abandoned unless congress makes additional provision for its proper celebration. This is practically what Secretary Tracy told a committee of citizens Thursday.

Stabbed Twelve Times.

THORNTOWN, Ind., Jan. 14.—Brant Burkhalter and Harry Debolt, brothers-in-law, became involved in a quarrel in Smith's saloon Thursday night, which resulted in Burkhalter stabbing Debolt twelve times with a pocketknife. Debolt is suffering greatly, and there is little hope for his recovery.

Shot Her Assailant.

MILAN, Tenn., Jan. 14.—Miss Ethel Cary, of Crawfords Station, last night shot and killed an unknown man who had followed her on her return from a neighbor's. The man attempted to assault her, and after a short struggle she drew her revolver and shot him.

No Choice.

HELENA, Mon., Jan. 14.—The vote for United States senator yesterday resulted: Sanders, 82; Clark, 26; Dixon, 8; Mulville, 8. No choice.

What is
CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulence. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood,
Lowell, Mass.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M.D.,
111 So. Oxford St., Brooklyn, N.Y.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
